

## Microsoft Dynamics 365 Technical Consultant

OnActuate is looking to hire a full-time Microsoft Dynamics 365 Technical Consultant to join our ever-expanding Microsoft Dynamics practice! As a member of the professional services team, you will work closely with our customers to help them meet their goals.

**Location:** India

**Key responsibilities include, but are not limited to:**

- Review customers' business processes - provide solid analysis, assess solutions, and advise on how to best meet their goals
- Complex application development
- Upgrades
- Integration
- Data migration
- Performance optimization
- Environment and release management

**Qualifications:**

- 3-5 years Dynamics technical design and development experience (X++, SSRS and BI development)
- Participated in a minimum of 3-4 MS full life cycle Ax2012, Dynamics 365 F&O implementations projects in a role of a Developer, Technical consultant, or Technical Architect
- Experience with Visual Studio and in .NET development
- Experience in upgrading From AX2012 to latest releases of Dynamics 365 (code and data upgrade)
- Experience in complex data migration (using DIXF, third party tools, custom development (EXCEL/CSV programs))
- Experience in complex integration development (web services, DIXF, .net custom client-server applications, knowledge of standard web services and integration protocols – OData, SOAP, JSON, REST, SSIS, direct SQL, Azure logic apps)
- Experience in performance optimization (X++ application code, troubleshooting D365 components, LCS Environment monitoring)

- Experience in environment and release management (ALM, TFS, Build processes, Environment management, Installation, and configuration of AX and related components)
- Experience managing projects and/or teams in the delivery of Microsoft Dynamics oriented projects
- Experience evaluating customer requirements and producing design and project documentation
- Azure knowledge, experience working with and managing cloud environments
- Strong knowledge of LCS, ALM and Delivery tools

**General:**

- Learns new concepts quickly and thoroughly
- Places emphasis on client satisfaction
- Excellent communication, presentation, training, client relationship and analytical skills
- Ability to solve complex problems with little to no guidance
- Demonstrates strong analytical and problem-solving skills, particularly about anticipating and solving problems or issues before they occur or become critical
- Good time management, well organized, consistently meets commitments and creates high level deliverables
- Strong passion to deliver high quality solutions
- Ability to organize, prioritize estimate and deliver tasks meeting deadlines
- Confidence and willingness to learn
- Strong work ethic
